• In addition to your reading, you also need to create flashcards (physical or digital is fine) of important terms, we will use in the course. These flashcards will be due the second week that we return to school. You are not required to complete the flashcards over the summer, but make sure that you give yourself enough time to complete them. You may work with a partner or a group and split the work evenly if you would like.

Each flashcard will need a definition of the term. The terms with an asterisk\* need an example. You can find the definitions and examples online, but you need to cite your source(s).
